

SIZING CHART

SIZING CHART: These charts show body measurements. Be sure to measure yourself to find the accurate size.

How to measure: For best results, have someone else take measurements. Measure body in swimsuit or underwear. Tape must be snug but not tight. If measurements fall between two sizes, order the larger size.

Height: Stand with back straight, without shoes; measure from the top of the head to the floor.

Chest: Measure under your arms, around the fullest part of your chest.

Waist: Measure around your natural waistline, keeping one finger between the tape and body.

Hips: Stand with legs together, measure around the fullest part of hips, ensuring the tape is level.
